

Daisy class is an upper secondary class in the Sensory learning approach. There are 8 pupils supported by the Class Teacher and a team of Teaching Assistants.

Pupils are given opportunities to explore individual sensory programs of learning through fun and exciting activities throughout their day. The multi-sensory activities vary, however some of the favourites so far are exploring the lights in our dark tent, stories and painting using our hands. We also work closely with the Occupational Therapists to support a vast number of movements and physio needs.
