

Bluebell class is within the Sensory learning approach. We have 8 pupils in our class. To support the learning in class we have a Teacher, a Senior Teaching Assistant and 3 Teaching Assistants.

During this school year, we will access a wide range of community experiences such as shopping and leisure visits. Pupils in year 9, 10 and 11 work towards ASDAN life skills accreditation in these areas.

We will also be learning through a wide variety of engaging sensory opportunities that support us to develop our communication and interaction. We love to be 'hands on' in our learning and use all of our senses when we explore activities. We are starting our year by exploring the theme 'Interesting facts about me and my community.' We will be exploring this topic in fun and creative ways that support us to develop our curiosity and engagement.
