

Dragonfly is within the EYFS learning approach and has 11 pupils aged between 4-6 years old and 4 adults who help us to learn.

Dragonfly class enjoy having lots of fun exploring our natural world and extending our curiosity with a range of open-ended resources within our environment. We love to explore the outside environment, particularly the forest school area where we can get messy and muddy!

This year we will be focussing on building strong and trusting relationships with those around us and building on our communication skills through the use of fun and exciting activities set up throughout the day. Our classroom is set up to meet the pupils' individual needs and focuses heavily on a calming atmosphere with lots of opportunities to gain sensory feedback alongside our learning activities.
