

The 10 pupils in Hazelwood class follow the Functional learning approach for their educational needs and wellbeing. This includes varied and purposeful lessons that promote and develop 'real life' skills, to help promote independent living. Pupils also benefit from opportunities to learn within the local community, by way of activities such as shopping, travel training and leisure facilities.

Pupils will regularly gain work experience at both Communigrow and Tutsham Farm.

Pupils will be working for accreditations within the ASDAN programme.

Ashwood, Birchwood and Hazelwood classes merge together to enable the pupils to work in small groups to access all activities.
