

Maple

Maple class has 17 pupils who are supported by a Class Teacher, Senior Teaching Assistant and 2 Teaching Assistants. We are within the Formal learning approach and we access the whole curriculum. However, we tailor and adapt it to meet the needs of each individual pupil.

We focus on key skills, such as identifying and regulating our emotions, independence skills as well as communication and interaction skills, so that pupils are able to make their wants and needs known.

We access main learning sessions such as maths, literacy, science, history and PSHE, whilst allowing pupils to interpret the tasks in their own way. We put an emphasis on speaking and listening skills, in addition to incorporating arts and crafts into regular sessions. We also engage with activities throughout the week which helps us to develop our fine and gross motor skills.

Maple class are excited for the year ahead.
