

Snowdrop class has 7 pupils and a staff team to support them. Our class is within the Sensory learning approach, so we enjoy sensory exploration of; touch, smell, taste, sight and sound.

We often get very messy in sensory play and we love it! Circle time is a great time for the class to come together and work as a community.

Our favourite place to be is outside. When we are outside, we have fun with water play and physical activities. We enjoy going to the farm to visit the animals, being on the trim trail, playing on the trampoline and the nest swing.
