

Hare class has 12 pupils, a Class Teacher, a Senior Teaching Assistant and 2 Teaching Assistants. Hare class is within the Structured learning approach and we follow the TEACCH rotation in class, which gives us the opportunity to explore 1:1, group sessions, leisure and individual workstation activities. We practice fine motor skills every morning during Clever Fingers sessions as part of a small group. We engage as a group in TACPAC, Write Dance and yoga regularly throughout the week.

We have four main areas of learning which are; communication and interaction, cognition and learning, physical and sensory, social emotional and mental health. We engage with the zones of regulation each morning, in order for all pupils to learn how to communicate how they are feeling. Our life skills sessions, including cooking, link directly to pupils' EHCP targets, which helps them to develop confidence in addition to a secure knowledge base.

We enjoy messy play and exploring the outside spaces, including the sensory garden. We have some exciting events coming up during the year, including our autumn themed production and class celebrations. We are planning to expand our learning to other outside areas including the yard and forest school.
