

Snail class has 12 pupils with 5 staff supporting our learning and extending our interests and experiences. This year we will focus on building relationships and positive social interactions as well as improving communication. We will be using a total communication approach of signing and symbols, to support understanding and support interactions.

We will be following a TEACCH rotation, using motivating activities based on class themes such as the great outdoors, celebrate, in a time gone by and animal magic. We will engage with the natural world weekly within the class and using our fabulous Saplings provision. We will have daily opportunities to engage with curiosity activities aimed at igniting passion, awe and wonder into play.

Snail class are looking forward to learning and exploring new things together.
