

In Squirrel class there are 7 pupils aged 7-8 years old. We have 4 adults in class; a Teacher, a Senior Teaching Assistant and 2 Teaching Assistants. We are within the Structured learning approach, which means we follow a TEACCH rotation in class consisting of 1:1 work, workstation, group work and leisure time. We use this rotation to help us understand our day and what is expected of us. We work on activities that help us to develop our communication, self-regulation, independence and life skills. We love our Attention Autism sessions, sensory circuits and cooking.

The learning topics for this year will be; Getting to Know You, Celebration, Transport, Animal Magic, The World Around Us and Fantasy Land (Fairy Tales, Pirates, The Sea, Dinosaurs, etc.)

As a class we enjoy going out shopping, to Morrison's café and for perimeter walks. During the year, we are looking forward to developing our skills to help us to achieve our EHCP targets. We are also looking forward to building our relationships with one another.
