

Vole is a secondary class within the Structured learning approach. In class there are 10 pupils with ages ranging from 12-18 years. Vole class pupils follow the TEACCH approach. This includes group work, 1:1 work and a workstation rotation.

Vole class has a positive approach to learning and staff give praise to successes achieved by the pupils. This year we will be working on developing life skills and preparing our pupils for adulthood, whilst following pupils individualised plans and working towards their own individual targets.
