

Wren class are a key stage 2 class within the Practical learning approach. We are a class of 10 pupils with ages ranging from 6 to 9 years. We love to learn. We are a happy, friendly group who love sharing and spending time with friends in all of the different environments around school.

In the Practical learning approach, pupils learn through real-world experiences, including child initiated play and learning in a range of different environments. Where possible, we try to relate learning to each pupil's individual experiences and our teaching approach reflects the learning styles of all pupils in the class. Our curriculum includes literacy and numeracy and we do many different activities to improve our gross and fine motor skills. Communication is at the heart of what we do and we incorporate Makaton and communication boards in our learning and daily routine. We hope to be able to embed this learning through accessing the wider school environment and taking trips out into the community.

We focus on communication and interaction skills and being positive and encouraging to one another. Our learning promotes independence, life skills and social interactions. We are looking forward to the year ahead and continuing to work on our independence and cognition skills.
