

Dragonfly class is within the EYFS learning approach. There are 11 pupils in class with 5 members of staff to support the pupils to learn and grow.

Dragonfly pupils enjoy exploring the natural world, being curious about authentic resources and engaging with a range of loose part materials. They also love to get involved in outdoor learning throughout all weather conditions and seasons and enjoy exploring the different learning opportunities that the different weathers bring.

This year, pupils will be focussing on building strong and trusting relationships with those around them and building on their communication skills, using fun and exciting activities set up throughout the day. The classroom is set up to meet the pupils' individual needs and focuses heavily on a calming atmosphere with lots of opportunities to meet their sensory needs alongside their learning activities.
