

O'Keeffe class has 8 pupils and a staff team consisting of a Class Teacher, a Senior Teaching Assistant and 4 Teaching Assistants to support them.

Our class is within the Sensory learning approach, so we enjoy sensory exploration of touch, smell, taste, sight and hearing. We often get very messy in sensory play and we love it! We enjoy group activities such as Attention Autism sessions, where we can work on our anticipation and exploration skills.

Outside is our favourite place to be as this is where we can have fun with water play and physical activities. We enjoy going to the farm to visit the animals and exploring our surroundings in the sensory garden and the field. Throughout the year, our topics will be based on a variety of things such as 'A place for me', 'Winter wonderland' and 'Out of this world'.
