

Hamilton class is a primary key stage 2 class within the Practical learning approach. In class there are 13 pupils aged between 7-8 years who are supported by a Class Teacher, a Senior Teaching Assistant and 2 Teaching Assistants.

Over the year, we will explore a range of different topics including; 'Look in the Mirror', 'Around the World', 'Field, Farm, Fork', 'Bang, Crash, Wallop', 'Once upon a time' and 'We're all going on a summer holiday'. Throughout the year we will also work on developing our life skills, independence and individual EHCP outcomes. Running alongside our topic themed learning this year we will continue to develop our understanding through our core numeracy and literacy subjects.

This year we will be working together as a learning approach to embed and establish our 6 key values for the year. These are; being 'team players', being respectful, honesty, courageousness, being aspirational and being resilient.
