

Babe class is within the EYFS learning approach. There are 10 pupils and 4 members of staff in class. Pupils range in age from 4-6 years.

This year we will be working on building strong relationships with those around us, whilst focusing on our communication skills. We will be using a total communication approach of signing and symbols, to support understanding and to support interactions. Our days will consist of TEACHH rotations, Attention Autism sessions, visits to areas within the school such as soft play and Saplings and having lots of fun!

Pupils love sensory play, particularly sand and playing with water. They also love exploring playdough. This year our activities will be based around a number of topics including; dinosaurs, life on the farm and vehicles.
