

Verne class is within the Formal learning approach, based at the Snodland site. We have 16 pupils in class, supported by a Class Teacher, a Senior Teaching Assistant and 2 Teaching Assistants.

We are a curious class who enjoy learning through a mixture of lessons and activities. Each day we take part in subjects including English, maths, topic, science, art, and PSHE. We also participate in activities such as cooking, P.E., swimming and sensory circuits.

In addition to learning in the classroom, we focus on building social and life skills to help us grow in confidence and independence. We enjoy spending time with our friends and are looking forward to the new experiences that secondary school has to offer.
