

Farah class is within the Practical learning approach. In class there are eight pupils who are supported by a Class Teacher, a Senior Teaching Assistant, a Teaching Assistant and a Cover Teaching Assistant.

This year, pupils will embark on an exciting learning journey filled with creativity, curiosity and hands-on learning experiences, which engage all of the senses. We will explore the following topics; “Celebrations”, “My Community and People Who help us”, “Let's go Wild”, “Mythical Beasts”, and “International Explorers!” Throughout all of these topics we will be developing practical life skills, going out in the community to practice these skills along side class based learning to build independence and confidence in a range of everyday environments. We will also be working towards individual provision plan targets and the B Squared framework.
