

Price class is within the Structured learning approach and consists of 9 pupils who are supported by a Teacher, a Senior Teaching Assistant, a Teaching Assistant and a Cover Teaching Assistant. Together we create a learning environment where pupils are encouraged to thrive in their schoolwork, both socially and personally.

We follow a structured approach to learning, with a balance of 1:1, group and independent activities, designed to meet each pupil's needs. Visual supports such as individual timetables, communication boards and choice boards help pupils to understand their routines and develop independence throughout the school day.

Physical sessions and social activities play an important role in class, with regular slots to access the field, the Trim Trail and the MUGA. Music adds creativity and excitement, giving pupils the chance to express themselves and build confidence. Alongside these activities, we are focusing on health and wellbeing through group yoga sessions as well as massage, Write Dance and Dough Disco sessions, which support relaxation, mindfulness and wellbeing.

This year, we look forward to developing learning through a range of varied and engaging experiences that support social, emotional and personal growth.
