

Schumann class is within the Structured learning approach and consists of pupils aged 6–8 years who are supported by a dedicated staff team.

Throughout the year, we will be taking part in engaging activities such as Attention Autism and phonics sessions, alongside opportunities to get messy and creative. Pupils build friendships and independence through the TEACCH rotation, structured play and outdoor learning experiences.

We enjoy exploring the outdoor learning areas, visiting Forest School and the FAWrient Express, as well as developing life skills through class cooking. A strong focus is placed on developing communication skills in fun and meaningful ways across all areas of learning.
